@ the National University of Singapore**

Conference website: <http://www.cit.nus.edu.sg/dli2003>

Presenter: Dr Yeo Gee Kin

Biography

Yeo Gee Kin, graduated with a First Class Honours in Mathematics from University of Singapore, completed her graduate studies in University of Waterloo, Ontario, Canada. She has been teaching at the National University of Singapore for many years with teaching experiences in operations research, statistical computing, Java programming, management support systems, and computing and society, handling both small and large classes, Now an Associate Professor in Information Systems at School of Computing, her research interests include simulation and gaming, model management for decision support and computer-aided Chinese language learning. She believes in learning through activities and has been using MAGNUS<"<http://magnus.comp.nus.edu.sg>">, a simulation gaming environment, to support her teaching of decision support systems. MAGNUS is now used by several other universities worldwide. In recent years, she has been active in educational conferences, especially those with emphasis in using information and communication technology. She was the recipient of Year 2000 Excellence in IS Teaching Award.
